

Bibliography of Recent Works on Islam by South African Scholars

The following list includes books, articles and theses prepared and/or published by South African scholars. Some of the books are written by local academics while others are edited or translated by them. The journal articles are exclusively by South African academics. The theses are not necessarily by South Africans but have all been completed at local institutions. The list only comprises works of this year and last year and is by no means exhaustive. Books are listed first, followed by articles and theses.
