

Edward Said: A Bibliography with Web Connections

The following list pays tribute to Edward Said's prodigious pen. It is a startling reflection of the man's power as a scholar and reminds us of the tremendous intellectual debt that we all owe to him. The first selection provides Internet links to a few of the many obituaries written in his memory. This is followed by links to over 50 essays written by Said himself. The list is concluded with a short list of his books, preceded by a link to a far more extensive online bibliography.
