

## **Experienced Researcher required**

Citizen Surveys is a full-service research consultancy. We work with a large selection of clients including private sector companies, government departments, academic institutions and donor organizations.

Citizen Surveys seeks an experienced researcher to join our team. This researcher will be primarily responsible for:

- Leading projects and liaising with clients
- Designing research solutions and developing research proposals
- Developing questionnaires, sampling methodology, analytic and reporting frameworks
- Writing research reports and developing presentations.

The ideal candidate has at least three years experience in managing quantitative research studies and good client-management skills. He/ she has a sound knowledge of sampling methodologies, data analysis techniques and is skilled in report-writing and preparing presentations. The ideal candidate has a Masters Degree or Phd degree.

This position is based in Cape Town but the candidate must be prepared to travel regularly on a national basis.

The salary is between R25,000 to R30,000 per month, depending on skills and experience. Interested candidates should send a covering letter and CV to [info@citizensurveys.com](mailto:info@citizensurveys.com) before 10 December 2010. Non-South African applicants must submit a valid work permit.
